ABOUT OUR PRESENTING SPONSOR:

Chris Augustine of Overland Park knows all too well what it's like to live with arthritis. Chris – the president of Augustine Exterminators, a business his parents started in 1966 – was diagnosed with a rare form of arthritis while in his early 20s. Now 43 and the married father of three children, Chris struggles daily with chronic fatigue and chronic pain, with virtually no range of motion in his neck, with stiffness ... and even with depression. Three of his four sisters have some form of arthritis, and Chris hopes events like today's breakfast will ultimately make life better for 50 million Americans living with arthritis.
